

Endpoints for Design Technology

Year 6 – Repair and Reuse

We will be learning the importance of reusing and repurposing clothing to reduce waste and protect the environment. We will learn a range of simple sewing stitches as well as ways of recycling and repurposing old clothes and materials.

What I know and can explain

Deconstructing garments identifies how they were made, the materials used and their properties

Hand stitches include running stitch, blanket stitch and whip stitch

It is important to understand the characteristics of different materials to select the most appropriate material for a purpose. This might include flexibility, waterproofing, texture, colour, cost and availability.

Useful Vocabulary

Bunting - A row of brightly coloured small flags that are hung up as decoration for special events

Fastening - A way of closing or securing something

Recycle - The process of converting waste materials into new materials

Utility - The usefulness of something
